Lecturer Profile

Keiko Takahashi

Keiko Takahashi teaches that at the root of the various problems facing modern society is the hollowing out of existence, in which human beings have lost sight of the Origin of the Soul as eternal life. She advocates that the *Study of the Soul* is a new view of humanity and the world that leads to the restoration of the origin. Currently, she presides over GLA, a practice group of the *Study of the Soul* and gives more than 300 lectures and individual guidance a year. Since 1992, she has given lectures to the general public in various locations, which have been attended by a total of 1.65 million people. She gives guidance and accompanies the lives of people in all walks of life and conducts ongoing seminars for professionals in various fields such as management, medicine, education, legal affairs, and the arts, looking ahead to the future of Japan and the world. The practical principles and methods

of the *Study of the Soul* taught at these seminars lead to the evolution of the inner soul and mind, and at the same time empower each individual to change concrete reality, solve problems, and create a new future. The results of more than 10,000 practitioners are attracting attention from various fields as a dynamic practical philosophy of a new age that simultaneously transforms the mind and reality. She is the author of *Reclaim Your Life*, *The Two Doors*, *The Golden Path*, *The Power to Know Oneself*, *How to Make Your Life the Best*, *The Reason Why You Live There*, *Reversing Destiny*, *We Can Change the Future!*, *Your Best for a New Era*, *Realm of Hope*, *Discovery of the Soul*, *The Path of Prayer-Revised Edition*, *The Reason Why You Were Born as You*, and many others (published by Sampo Publishing).

Reader's Impressions

It was an amazing book. I was thinking, "Reclaim my life from now?" But this book says, "You can at any time." The stories were incredible, and to find out that the people in the book are actual people who lived these actual lives took me by surprise. I would like to attend the author's lecture and hear her in person. (Female, Mie, in her 70s)

My parents divorced when I was three years old, and I have almost no memory of my father. For many years, I was filled with such thoughts as, "Why did I have to lead a life struggling financially?, Maybe there was a better future for me." But by seeing humans as souls, I feel that what happened in my past can also be resolved. (Female, Hokkaido, in her 30s)
