

A time of trials that is extremely difficult.

The key to breaking through limits and barriers lies within each person's inner potential.

The Other Self is something that is sleeping within you, and you may not even know exists—

When you awaken that Self, the power to open a future you never imagined will emerge.

# About Lecture by Keiko Takahashi

In response to the requests from readers of Keiko Takahashi's books who wished to hear the author's lectures, the Lecture Series by Keiko Takahashi began in 1992. Since then, they have been held annually with new themes, across Japan and abroad.

## Lecturer Profile

## Keiko Takahashi

Keiko Takahashi explains that the root of the various problems facing modern society is the hollowing out of existence in which human beings have lost sight of the Origin of the Soul as eternal life, and she has compiled a new view of humanity and the world that leads to the recovery of that origin as the Study of the Soul. She has systematized the principles and methods of practice so that everyone can walk that path in their daily lives. Currently, she presides over GLA, a group that practices the Study of the Soul, and gives more than 300 lectures and personal guidance sessions a year. In addition to accompanying and guiding the lives of people of all generations and professions, she also provides guidance to professionals in various fields, including management, medicine,

education, legal affairs, welfare, and the arts, with an eye on the future of Japan and the world. Her outstanding dialogue-based guidance to grasp the problems of reality from the dimension of the soul makes her a *truly comprehensive consultant for life and work*, and she is highly trusted by people from all fields. Since 1992, she has given lectures to the general public in various locations, which have been attended by a total of 1.7 million people. She is the author of more than 90 books such as *Your Other Self* (English version is in preparation), *Reclaim Your Life*, *The Two Doors*, *The Golden Path*, *The Power to Know Oneself*, *How to Make Your Life the Best*, *The Reason Why You Live There*, *Reversing Destiny*, *Your Best for a New Era*, *Adventure of the Soul*, *The Path of Prayer*, *Revised Edition*, etc. (published by Sampoh Publishing).
